

Saint Mary's College of California

Undergraduate Commencement

2024

Saint Mary's College of California in the twenty-first century celebrates the three traditions that have sustained it since its earliest years and seeks its future in them: the classical tradition of liberal arts education, the intellectual and spiritual legacy of the Catholic Church, and the vision of education enunciated by Saint John Baptist de La Salle and developed by the Brothers of the Christian Schools and their colleagues in a tradition now more than 300 years old.

Saint Mary's College is rooted in the traditions of Saint John Baptist de La Salle, founder of the Christian Brothers and patron saint of teachers in the Roman Catholic Church.

The Mission of Saint Mary's College is:

To probe deeply the mystery of existence by cultivating the ways of knowing and the arts of thinking.

Recognizing that the paths to knowledge are many, Saint Mary's College offers a diverse curriculum which includes the humanities, arts, sciences, social sciences, education, business administration, and nursing, serving traditional students and adult learners in both undergraduate and graduate programs. As an institution where the liberal arts inform and enrich all areas of learning, it places special importance on fostering the intellectual skills and habits of mind which liberate persons to probe deeply the mystery of existence and live authentically in response to the truths they discover. This liberation is achieved as faculty and students, led by wonder about the nature of reality, look twice, ask why, seek not merely facts but fundamental principles, strive for an integration of all knowledge, and express themselves precisely and eloquently.

To affirm and foster the Christian understanding of the human person which animates the educational mission of the Catholic Church.

Saint Mary's College holds that the mystery which inspires wonder about the nature of existence is revealed in the person of Jesus Christ, giving a transcendent meaning to creation and human existence. Nourished by its Christian faith, the College understands the intellectual and spiritual journeys of the human person to be inextricably connected. It promotes the dialogue of faith and reason; it builds community among its members through the celebration of the Church's sacramental life; and it defends the goodness, dignity, and freedom of each person, and fosters sensitivity to social and ethical concerns. Recognizing that all those who sincerely quest for truth contribute to and enhance its stature as a Catholic institution of higher learning, Saint Mary's welcomes members from its own and other traditions, inviting them to collaborate in fulfilling the spiritual mission of the College.

To create a student-centered educational community whose members support one another with mutual understanding and respect.

As a Lasallian college, Saint Mary's holds that students are given to its care by God and that teachers grow spiritually and personally when their work is motivated by faith and zeal. The College seeks students, faculty, administrators, and staff from different social, economic, and cultural backgrounds who come together to grow in knowledge, wisdom, and love. A distinctive mark of a Lasallian school is its awareness of the consequences of economic and social injustice and its commitment to the poor. Its members learn to live "their responsibility to share their goods and their service with those who are in need, a responsibility based on the union of all men and women in the world today and on a clear understanding of the meaning of Christianity."

(From The Brothers of the Christian Schools in the World Today: A Declaration)

Integral Program

Elizabeth Hamm, PhD
Director

The Integral Program is a community of students who read and interpret primary texts in mathematics, natural science, literature, philosophy, and theology, seeking principles from which to evaluate them. The Program aims at openness of mind, the chief mark of a well-composed and free soul who, in deep difficulty as in high delight, affirms that human life is worth living.

LATIN HONORS

Latin Honors accord graduating seniors recognition for academic excellence achieved over the duration of their undergraduate years at Saint Mary's College.

There are three categories of honors:

* Cum Laude: Seniors with a cumulative grade point average of 3.50–3.69 as of March 1, 2024.

** Magna Cum Laude: Seniors with a cumulative grade point average of 3.70–3.84 as of March 1, 2024.

*** Summa Cum Laude: Seniors with a cumulative grade point average of 3.85–4.00 as of March 1, 2024.

ACADEMIC REGALIA

The academic regalia worn by today's college professors links them with their counterparts in the medieval universities. Caps and gowns were standard daily attire for educated persons as early as the twelfth century and undoubtedly evolved from the robes, hoods, and caps worn for warmth in the frigid stone abbeys by the monks and friars who were the early students and masters.

The traditional cap is the mortarboard ornamented with a black tassel or, in the case of a doctor's cap, a gold tassel. A number of colleges and universities specify a soft velvet tam instead of the stiff mortarboard in their academic attire.

The academic hood hangs down the back of the gown, denoting the field of study of the wearer and the university awarding the degree. The inner satin lining represents the colors of the university awarding the degree, and the upper trim's colors represent the School awarding the degree.

New graduates of Saint Mary's College wear colored hoods representing their school. Banners decorating the stage area reflect the colors of the schools:

- Economics and Business Administration, Drab
- Liberal Arts, White
- Science, Gold

Members of the governing body of a college or university, whatever their degrees may be, are entitled to wear doctor's gowns. They may also wear a hood representing the institution they govern, rather than that from which they hold a degree.

LIST OF GRADUATES

The preceding list of graduates and their degrees is based on information supplied by the various program offices. Although every effort was made to ensure that the information was correct at the time the booklet went to press, a student's status may change after that date. Graduation status, degree completion, and academic honors are subject to a final degree-requirements evaluation. The posting of the earned degree on the official transcript record in the Registrar's Office remains the official testimony of the possession of the degree.
