

# APPLY TO THE SMC STEM TEACHERS FOR JUSTICE, COMMUNITY, AND LEADERSHIP ROBERT NOYCE SCHOLARSHIP PROGRAM AT SMC!

There is a profound STEM teacher shortage in high need schools in the Bay Area. Youth need caring, committed, anti-racist, culturally responsive, equity-minded teachers. Bring your Lasallian commitment to social justice into the STEM classroom to serve middle and high school students in high needs schools!

Incoming Single Subject STEM credential students may apply to be a Noyce scholar and receive \$30,000 in scholarship funding, an iPad, funds for membership in a STEM organization, a STEM education book to read in a community of practice, field support student teaching in Mt. Diablo Unified School District with a Noyce teacher mentor, STEM education workshops, & career trajectory support! Noyce scholars will be supported in STEM educator communities – within SMC, with local school partners, & with regional and national networks – to become transformative STEM teacher change agents.

### Eligibility:

- Must not have served as a classroom teacher of record before
- Have an undergraduate degree in an approved STEM major
- Have worked as a STEM professional or is a recent graduate

**Commitment:** Selected scholars must teach in a high need school district for at least two years after completing the credential.

The STEM Teachers for Justice, Community, and Leadership Noyce Scholarship Program fosters growth in five knowledge bases.
